## PROFESSIONAL SUMMARY

---

A software engineer with **3+ years** of experience in **frontend development** using **Next.js**, **React**, and **Tailwind CSS**, with a working knowledge of **backend development** using **Node.js** and **Solidity**. Focused on building **responsive** and **user-centric** web applications.

## EXPERIENCE

---

- **Panther Protocol** Remote  
*Frontend Web Developer* December 2021 – Present
  - Developed scalable React components with Next.js for user-friendly interfaces.
  - Contributed to backend logic with Solidity, enhancing Web3 integrations.
  - Gained Solidity expertise to assist in smart contract development.
  - Promoted zero-knowledge technology and conducted crash courses within the ZK Monk community.
- **Antino Labs** Noida, India  
*Frontend Developer* June 2021 – December 2021
  - **Begig.io**: Developed the entire frontend, including authentication logic, state management, dashboard, custom filters for search and tables, ensuring seamless user experience.
  - **FindingDoc.io**: Developed from scratch using plain JavaScript with features like infinite scroll, multi-step patient forms, and API testing using Postman.
- **Ethica Invest** WFH  
*Frontend Development Intern* December 2020 – June 2021
  - Created a new React-based web application with reusable components, stock charts, and live data integration using the Trading View API, along with user registration APIs using Node.js and MongoDB.

## SKILLS

---

- **Programming Skills**: React, Next.js, Tailwind CSS, TypeScript, JavaScript, Solidity, Node.js, Express.js, Ethereum, ZK Proofs, DSA
- **Tools and Technologies**: Git, AWS, Stripe API, Vercel, ERC-20, ERC-721

## EDUCATION

---

- **Zakir Husain College of Engineering and Technology, AMU, Aligarh, India**  
*B.Tech in Mechanical Engineering* 2015 - 2020  
GPA: 6.00

## PROJECTS

---

- **BrightBells**  
An e-learning platform connecting students with expert tutors for personalized subject-specific needs. Worked on client-side development and implemented Stripe payment integration.
- **Ethicals Lab**  
A platform offering web services, hands-on training, and internships focused on empowering freshers and newcomers in the Next.js and React.js ecosystem.
- **Micro-blogging Platform**  
Developing a dynamic community space using Next.js, TypeScript, and Node.js, featuring NSFW filtration, private groups, and category-based feeds. (In progress)
